

## Summary Tables for FY 2012 Northeast Multispecies Fishery

These tables compare data for the first six months of the Northeast Multispecies fishing year (May-October) for fishing years 2010, 2011 and 2012. These are updates of tables included in the year-end report for fishing year 2011, and the table numbering is consistent with that document.

Tables were produced by NOAA Fisheries' Northeast Regional Office.

### List of Tables

Table 1. Summary of major trends – includes all vessels with a valid limited access multispecies permit.

Table 2 – Total landings and revenue from all trips

Table 3 – Total landings and nominal revenue from groundfish trips.

Table 4 – Nominal value of landings of all species by state and port of landing (all trips)

Table 5 – Nominal value of landings of all species by home state and home port (all trips)

Table 6 – Nominal value of landings of groundfish by state and port of landing (all trips)

Table 7 – Nominal value of landings of groundfish by home state and home port (all trips)

Table 8 – Nominal value and landed pounds of top ten non-groundfish species landed by limited access groundfish vessels

Table 9 – Number of vessels by fishing year

Table 10 – Effort by active vessels (by size category) . Shows the number of groundfish and non-groundfish trips, with days absent and average trip length.

Table 11 – Average nominal revenue per vessel (by size category). Shows the average revenue from all species, average revenue from groundfish, and average revenue for all species on groundfish trips.

Table 12 – Average nominal revenue per trip and days absent (by size category). Shows average revenue per groundfish trip and per non-groundfish trip, average revenue per day on groundfish trips, and average revenue per day on a non-groundfish trips.

Table 43 – Changes in employment indicators by vessel size category (all trips).

Table 44 – Changes in employment by home state (all trips). Shows total number of crew positions, crew trips, crew days, and crew day/crew trip.

**Table 1. Summary of major trends (May through October, includes all vessels with a valid limited access multispecies permit)**

Landings in landed weight (lb)

Groundfish revenue include estimate of missing dealer reports; dealer and vessel-reported revenue for other species.

\* Note sector plus common pool vessel counts may exceed the total vessel count because vessels may switch between sector and common pool eligibilites during the fishing year.

Run Date: December 4, 2012

These data are the best available to NOAA's National Marine Fisheries Service (NMFS). Data sources for this report include: (1) Vessels via VMS; (2) Vessels via vessel logbook reports; (3) Dealers via Dealer Electronic reporting. Differences with previous reports are due to corrections made to the database.

**Table 9. Number of vessels by fishing year (May through October)**

	2010			2011			2012		
	Total	Sector Vessels	Common Pool	Total	Sector Vessels	Common Pool	Total	Sector Vessels	Common Pool
<b>As of May 1 each Fishing Year:</b>									
<b>Total groundfish limited access eligibilities</b>	<b>1441</b>	<b>762</b>	<b>679</b>	<b>1422</b>	<b>828</b>	<b>594</b>	<b>1408</b>	<b>851</b>	<b>557</b>
<b>Eligibilities held as Confirmation of Permit History</b>	<b>94</b>	<b>22</b>	<b>72</b>	<b>168</b>	<b>88</b>	<b>80</b>	<b>228</b>	<b>146</b>	<b>82</b>
<b>During any part of the fishing year*:</b>									
<b>Total eligible vessels</b>	1,377	752	627	1,283	760	526	1,205	720	490
<b>Eligible vessels that did not renew a limited access groundfish permit</b>	53	11	42	99	18	81	88	20	68
<b>Vessels with a limited access groundfish permit</b>	1,324	741	585	1,184	742	445	1,117	700	422
... those with revenue from any species	858	423	436	777	433	345	752	432	325
... those with revenue from at least one groundfish trip	368	263	106	359	270	89	298	248	52
... those with no landings	466 (35%)	318 (43%)	149 (25%)	407 (34%)	309 (42%)	100 (22%)	365 (33%)	268 (38%)	97 (23%)

\* On May 1st of the fishing year the number of vessels will equal to the number of eligibilities not in Confirmation of Permit History (CPH). Over time the number of vessels will differ from the number of eligibilites because these eligibilites can be transferred from vessel to vessel during the fishing year.

Note sector plus common pool vessel counts may exceed the total vessel count because vessels may switch between sector and common pool eligibilites during the fishing year.

These numbers exclude groundfish limited access eligibilities held as Confirmation of Permit History (CPH). Starting in 2010, Amendment 16 authorized CPH owners to join Sectors and to lease DAS. For purposes of comparison, CPH vessels are not included in the data for either Sector or Common Pool.
