Landings statistics for species without target TACs including scallops, silver hake, and red hake are available in the attachment.
**TAC includes commercial landings, and discards, recreational landings, or Canadian landings. Only commercial landings are available for monitoring.*

***TAC only includes lengths greater than 60 cm. Landings data include all lengths.*

Monkfish quotas were revised on October 22, 2007 and the new quota figures are presented above.

December 2007

The preliminary fisheries statistics indicating stock areas and gears in this report were derived by prorating available dealer electronic and vessel log data. These preliminary statistics, therefore, represent the currently available information, but are subject to revisions in the future.

- Note:**
- 1) **Data of selected species are reported in detail (see table of contents).**
 - 2) **This report will become available on the NMFS website:**
